Work experience (11 years)

Senior Security Consultant

🏢 Black Duck / Synopsys GmbH (Germany)

📅 Oct/2021–present (3 years 4 months)

The Synopsys Software Integrity Group became a standalone company, Black Duck, in October 2024.

Information security consulting, mainly around threat model-
ing. Development of internal capabilities and external per-
ception. Examples:

- Product Owner (PO) role for a threat modeling automation tool.
- Development of the threat modeling methodology.
- Creation of training material (threat modeling, secure Java development, among others).
- Lead customer trainings (presential and virtual).
- Maintain templates for project deliverables (e.g. reports, diagrams).
- SME in Post-Quantum Cryptography (PQC).
- Represent the company's public perception with whitepapers, participation in conferences and responding to journalistic inquiries.

Security Consultant

🏢 ESCRYPT GmbH (Germany)

📅 Feb/2017–Sep/2021 (4 years 7 months)

Consult on security projects for embedded device OEMs,
mainly in the automotive and IoT domains. Risk analyses, se-
curity concepts, development and maintenance of LaTeX tem-
plates.

Information Security Consultant

🏢 Cybertech de Colombia

📅 Dec/2011–Aug/2014 (2 years 8 months)

Security consulting with emphasis on cryptopgrahy.

- Development, installation and support of cryptographic software.
- Prepare and hold trainings (e.g. cryptography, secure coding).
- Assist customers with bespoke security needs.

(Internship) Developer

🏢 Indra Colombia

📅 Jul/2010–Jan/2011 (6 months)

Develop and support software for a telco.
